## 20. ANTI DOPING POLICY

Anti-Doping Rules, like Competition rules, are sport rules governing the conditions under which sport is played. Athletes and other persons involved in the event accept these rules as a precondition to compete. All athletes shall be subject to Competition Testing by the World Triathlon, the Athlete's National Federation, Anti-Doping Organizations or any other organization promoting Events in triathlon.

**\*\*All athletes must ensure they carry their official identification (Photo ID)\*\***

Further info on Anti-Doping Rules can be found here: <https://triathlon.org/anti-doping>

If you are selected for Doping Control, someone will approach you to notify you. You may be asked to go for Doping Control even before the race, for example, after picking up your Registration pack or when you check in your bicycle in the Transition Area. The Doping Control Chaperone and/or Officer will explain the procedure to you but you need to be aware that you have certain rights and responsibilities.

You have the right to:

- a) Appoint a representative of your choice to accompany you to Doping Control.
- b) Request the services of an interpreter in case you do not have a good command of English (if required).
- c) Request additional information about the Doping Control procedure.
- d) Request a delay in reporting to the Doping Control Station for valid reasons. (These reasons may be to receive necessary medical care, locate a representative or fulfil a media commitment but you must have the consent of, and be in full view of, the Doping Control Officer or Chaperone.)
- e) Request necessary modifications if you have a disability.
- f) Note any concerns with the Doping Control process on the Doping Control Form. g) Request part "B" of your sample be analysed to confirm a positive result.
- g) A fair hearing in compliance with the World Anti-Doping Code.

Your responsibilities include:

- a) Be aware of, and comply with, the World Anti-Doping Code and the ITU Anti-Doping Rules.
- b) Be aware of which substances are not allowed and are included in the Prohibited List.
- c) Comply with requirements for Therapeutic Use Exemptions (TUE). A TUE allows you to take a substance included in the Prohibited List, if that is the only option available to you and you meet specific requirements. There are strict rules governing TUEs so it is best to check them before the event. As an Age Group athlete you may apply for a retroactive TUE but it is not guaranteed, so you may want to request one no later than 30 days prior to racing.
- d) Report to the Doping Control Station immediately or within the required time slot specified by the Doping Control Chaperone.
- e) Control your sample until it is sealed in the sample collection kit.
- f) Ensure the sealed sample collection kit is secure and identified.
- g) Ensure all documentation is accurate.

You must carry with you an ID/passport with photo when proceeding to the Doping Control Station. It is also a good idea to make sure that you have access to your National

Federation manager's phone number so that you can let him/her know that you have been selected for Doping Control.

If you have any questions about Anti-Doping procedures, please visit the World Triathlon Anti-Doping Stand at the Expo where our volunteers will clarify your doubts and answer your questions. You can also check the Age Group Anti-Doping section on [www.triathlon.org](http://www.triathlon.org)

An Anti-Doping Age Group Q&A is available:
